

# What to Consider When Setting Your Intentions

- Breathe
- When you look at your life, what keeps you up at night?
- When you look at your future, what makes you uncertain?
- When you look at your home, what room bothers you the most?
- Look at the areas of the bagua... Which areas will impact your needs and desires?

# Nine Stars Tracing

- First, draw a floor plan of your home or room.
- Second, locate the front door and overlap the Bagua over the house or space floor plan. Note the entranceway at the Knowledge, Career, or Helpful People area.

# Tracing the Nine Stars to Bless the Home

Next, identify the nine specific areas of the house or room to walk the nine stars to improve the energy and bless the space. Start on #1.

# Nine Stars Tracing

After cleaning the space, it's time to do a powerful energy clearing with the three secrets reinforced: body, mind, and spirit. You will use an Ousting Mudra hand gesture to eliminate the undesired energy. See the picture of Ousting Mudra. You'll think of the outcome you need for each of the nine areas of your life, and you'll repeat the Heart Sutra Mantra nine times as you walk the nine-star path to support the clearing and do the hand gesture.

The Heart Sutra Mantra is, "GATE GATE, BORO GATE, BORO SUN GATE, BODHI SO PO HE." (Gate is pronounced Gatay.) This mantra is like a prayer loosely translated as "grant our wishes."
